learning activity

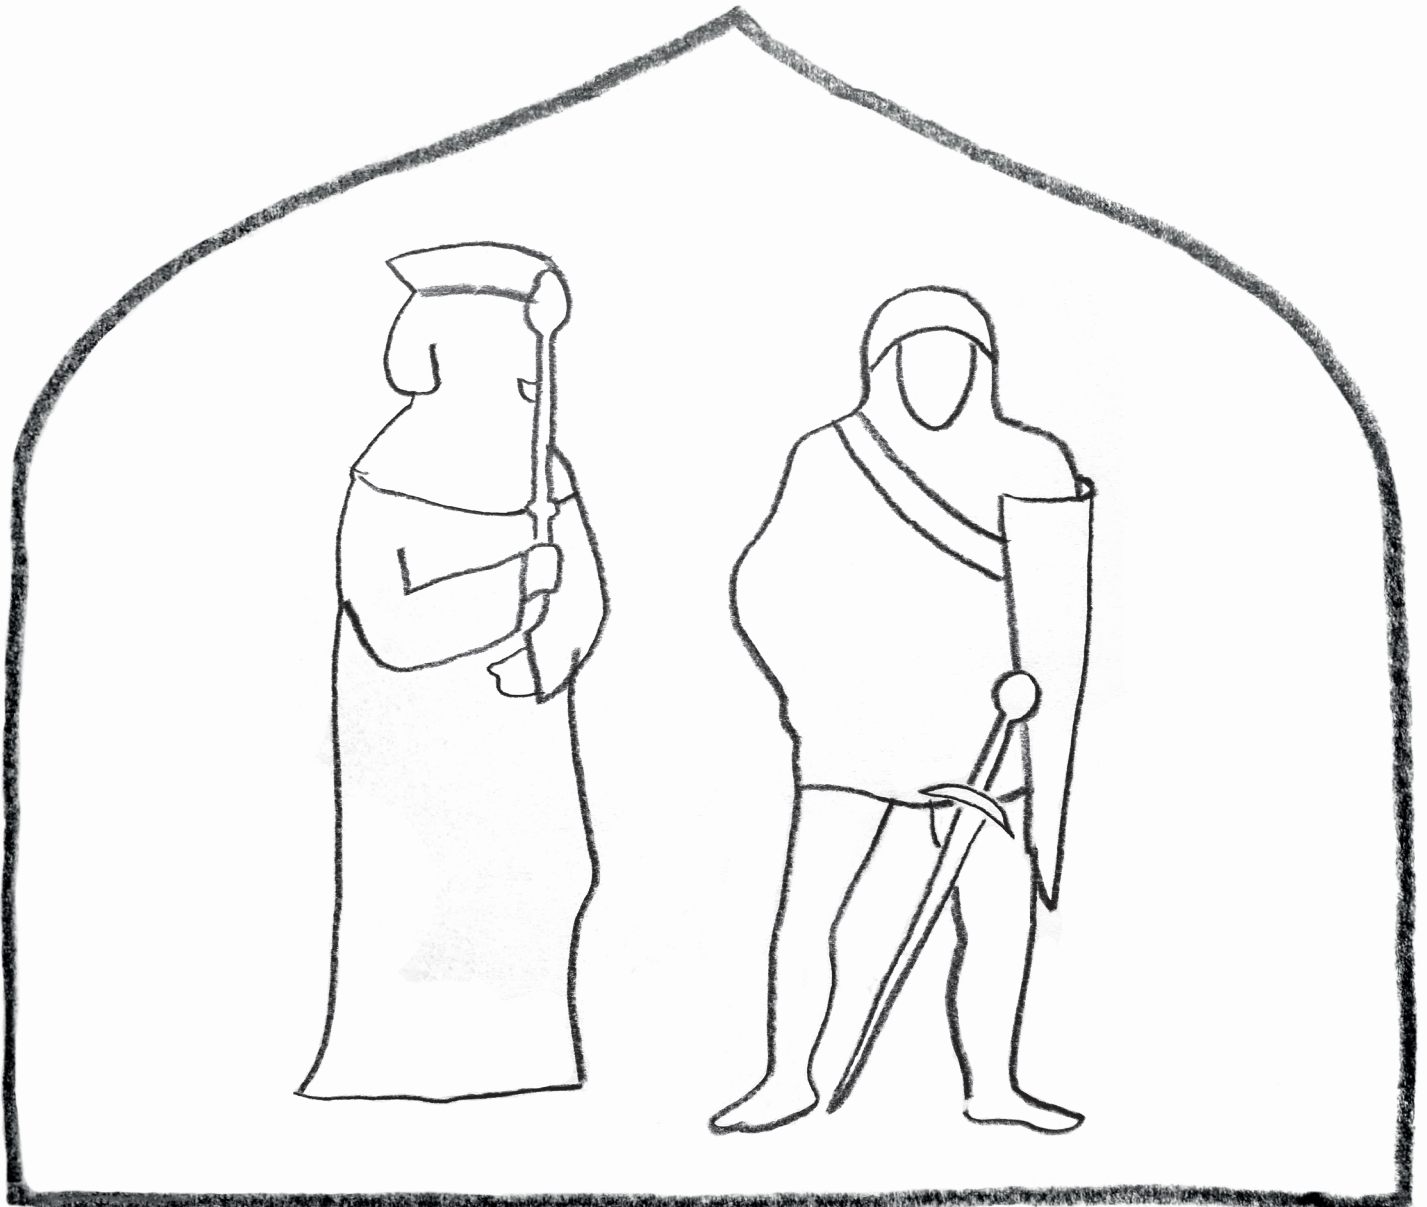

Filling in the gaps!

A working out drawing activity for young visitors

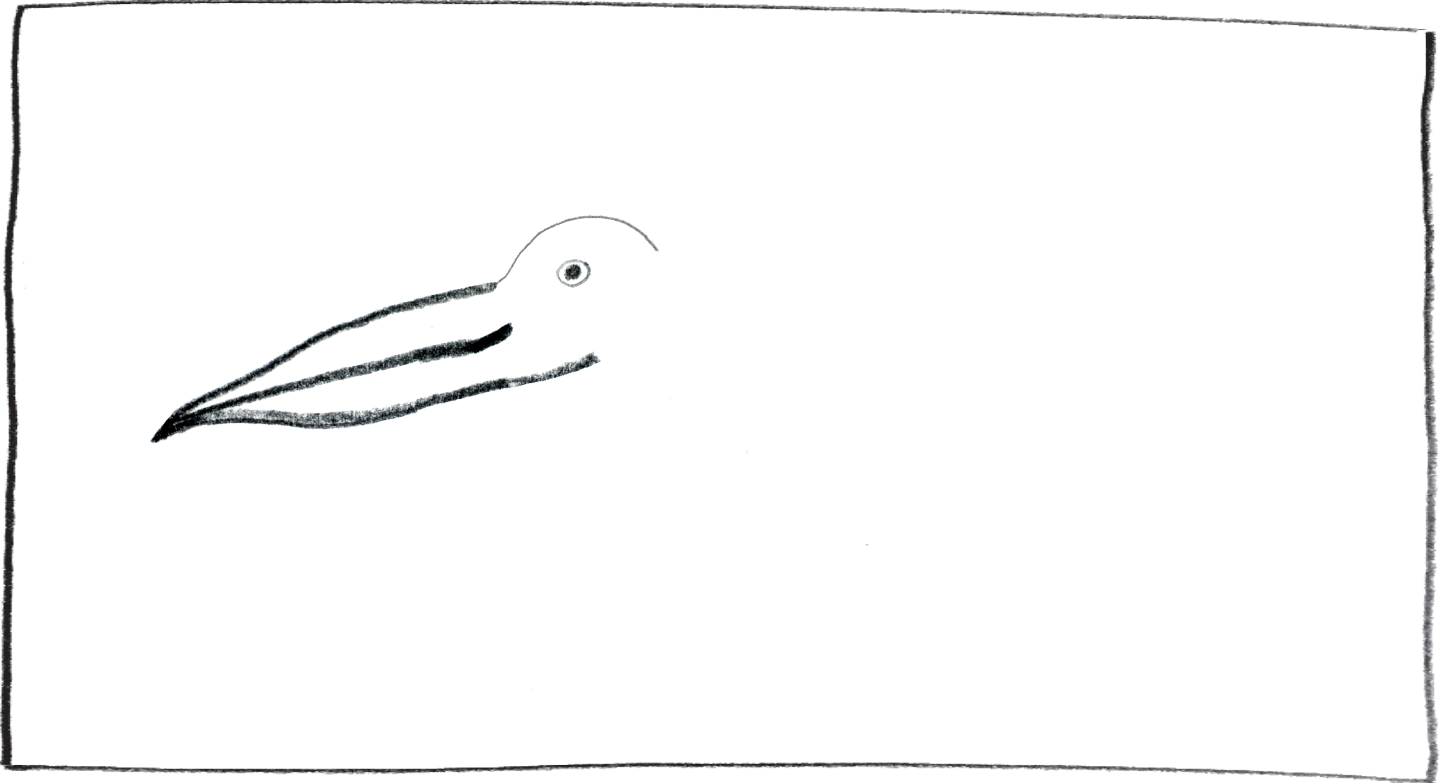

Find the design for stained glass showing King Arthur and Sir Lancelot. Can you see the thick black lines used by Morris? These divide up the sections of glass.

Fill and colour in the outline below with your own drawing of the famous pair!

Filling in the gaps!

Find this bird design 'Pelican in her Piety'.
Here is her beak. Can you draw her body?

There are many other birds throughout the Gallery.

William Morris studied birds for his designs. His birds are hidden in patterns. Look to see how many you can find (if you're doing this at home, you can search the collection on our website). Draw as many as you can find below:
